

TECHNICAL EXHIBIT  
COUNTER PROPOSAL IN MM DOCKET NUMBER 01-345

Technical Narrative

This Technical Exhibit, of which this Narrative is part, proposes a Counter Proposal in the MM Docket Number 01-345 FM Rule Making to modify the Commission's Table of Allotments contained within Section 73.202 within the Commission's Rules.

All population data, unless otherwise noted, is based upon the 2000 Housing and Population Census. The determination of available reception services was based on the criteria set forth in footnote 1 of the Notice of Proposed Rule Making in MM Docket No. 96-219 (DA 96-1774; adopted October 25, 1996, released November 1, 1996). Urbanized area definitions are based upon the 1990 Census.

Summary of Counter Proposal

Below is a summary of the allocation changes requested in this instant Counter Proposal.

- Change City of License from Wickenburg, Arizona to Surprise, Arizona.
- Modify Proposed Channel 242C Reference Coordinates
- Continue to substitute Channel 270A for Channel 241A at Salome, Arizona with no reference site change.

Proposed Channel 242C Surprise, Arizona

It is proposed to delete Channel 242C3 at Wickenburg, Arizona and allot Channel 242C at Surprise, Arizona.

The attached Sheet 1 of Figure 2 is a tabulation of the required separations pertinent to the use of Channel 242C at Surprise. The proposed reference site complies with the Commission's minimum distance separation requirements contained in Section 73.207 to all existing, authorized and proposed stations and allotments except for the vacant Channel 241A allotment at Salome, Arizona. As initially proposed, it is continued to request to substitute Channel 270A for Channel 241A with no reference site modification.

Operation from the reference site identified below will provide the requisite city grade signal to all of Surprise. Sheet 2 of Figure 2 is a coverage map showing the 70 dBu contour and the city limits of Surprise.

Below are the Channel 242C Surprise reference site geographic coordinates:

33° 59' 05" North Latitude  
112° 52' 46" West Longitude

The Channel 242C service gain area would contain 1,510,000 persons over an area of 21,800 square kilometers. There would be no loss area created. A map showing the gain area is provided on Sheet 3 of Figure 2.

Sheet 4 of Figure 2 shows the services serving the existing and proposed service areas. As can be calculated with the map contained in Sheet 4, an area of 1,600 square kilometers containing 2,300 persons would receive their first full-time domestic service and an cumulative area of 1,900 square kilometers containing 100 persons would receive their domestic second full-time service with Channel 242C at Surprise.

Proposed Modifications to Table of Allotments

This proposal provides for the following allotment changes to Section 73.202, The Commission's Table of FM Allotments.

| <u>City</u>    | <u>Present</u> | <u>Proposed</u> |
|----------------|----------------|-----------------|
| Wickenburg, AZ | 242C3, 287C2   | 287C2           |
